

## 2015 HCRCC Monday Night Fun Fly

Starting this Monday June 8 and every Monday\* through September, come try your hand at our Monday Night Fun Fly!

Each week we will have 1 fun fly event designed for novice as well as seasoned pilots. No pressure, just come and try your hand at these challenges. Any airplane type can participate, electric, nitro, prop or ducted fan. This is a club members event with no entry fee. Regular open flying will continue during the event.

The first event, June 8, will be SPOT LANDING. Starting at 6:30 PM.

There will be a SPOT marked on the field. Once a pilot calls for a landing, the spot where the plane first touches the ground will be marked and measured from the circle. Closest to the SPOT is declared the winner. Each Pilot will be allowed 3 attempts.

### PRIZES:

**We have gathered a prize pool of over \$250.00 worth of merchandise to be drawn at our annual awards night November 7.**

1-Each participant (that makes an attempt at the event) will receive an entry to our prize pool. 1st place will receive 2 additional entries. 2nd place will receive 1 additional entry. Ties will receive the next higher additional entries.

2-Prizes will be awarded based on random drawing from the total entries received from all events.

3-First name drawn will have first pick at any 1 item in the prize pool. 2nd name will choose 1 item from the balance, and so on, until the prize pool has been awarded. A member has a chance at multiple drawings based on entries from the events. In the event a member is not present when drawn, the person who was picked before that member will pick for the absent member.

\*Monday nights that are part of a long weekend will not be included. In the event of inclement weather (over 20KPH wind or rain) the event will be postponed. This will be determined based on the weather indicated at 5pm on the day of the event, on the HCRCC.org website.

### FUTURE EVENT:

\*start practicing!

- Most consecutive loops
- most loops in 2 minutes
- shortest flight
- Drag race (ground taxi)
- Brake landing
- 2 minute flight
