

HCRCC Monday Night Fun Fly
June 15 2 minute flight

Another well attended, great evening for flying. 12 more entries into our \$250 prize pool.

There were 11 members at the field, 10 participated in the event. The goal this week, was to take off, fly around and land in as close to 2 minutes as you can. No timers allowed. It started with most attempts at 1 minute 45 seconds. but after all flights had been recorded, Greg Lock counted to 120 and landed at 2:00 to take first place. Rick Reid placed second with 2:03, and honourable mention goes to Howard McKay with longest at 2:57.

Again Claude Georget, helped time some attempts and also decided he had enough of me standing beside him when he wanted to fly, so he took the test and received his A wings.

Next week a very simple aerobats event. See you there.

Rick Reid
